Subject: SCVE follow up -City support for Energy rebates

Hi Susan,

I wanted to quickly message you on the question I had in regard to comments from tonight. You mentioned any ideas would be helpful in furthering the reach codes and energy efficiency. I wondered if the County could possibly partner with Cities to provide these education workshop we talked about on side by sides on efficiency and rebates on additional household items and maybe add some of the less readily rebates items such as electric stove tops, pool water pumps etc.? I see there are rebates on water heaters and some others. If so I'd love to talk with our City about piloting.

Thanks,
Yvonne
